BEHAVIOR MODIFICATION TRAINING TIPS

01 WEEK 1 FOCUS: Be Positive.
Reward your dog for positive behaviors to encourage them to do those behaviors in the future. Don’t reprimand bad behaviors as it may confuse the dog or cause more anxiety.

02 WEEK 2 FOCUS: Only Reward Calm Behavior.
Ignore attention-seeking behaviors and spend time with your dog when he/she is calm. Utilize daily walks and play time to engage and reward him/her.

03 WEEK 3 FOCUS: No More Drama When You Come and Go.
Train your dog to remain calm when you come or go from home.
Be sure to provide a favorite toy or treat before you leave.

04 WEEK 4 FOCUS: Develop Your Dog’s Independence.
Teach your dog to be calm and relaxed in a “safe place” at the house.
Be sure to reward your dog with treats or attention when he/she is relaxed.

It’s important to know that some dogs may show improvement within 1 to 2 weeks of starting treatment and training, however others may take as long as 8 weeks to show improvement. Your veterinarian will monitor progress - with the help of this journal - and discuss alternate treatment plans if no improvement is noted.

Important Safety Information: The most common adverse events reported in decreasing order of reported frequency are: decreased appetite, depression/lethargy, shaking/shivering/tremor, vomiting, restlessness and anxiety, seizures, aggression, diarrhea, dilated pupils, vocalization, weight loss, panting, confusion, incoordination, and excessive salivation. Reconcile chewable tablets are contraindicated for dogs with a history of seizures or when used with drugs that may cause seizures. Consult your veterinarian for complete safety information or see package insert.
